

Options for Dahua technical support

Submit tickets directly

Installers can submit tickets to Zendesk directly(<https://dahuaoceania.zendesk.com>) for support. All tickets need review by the Dahua Hotline team.

Email distribution partners

For urgent support or no feedback, email Dahua distribution partners(such as the supplier you bought the products from). They can submit higher priority Zendesk tickets.

Call support hotline

The Dahua hotline team answers calls and provides service. They operate via the Zendesk platform(1800 132 482).
