FEATURES OF THINKVISION S-Series MONITORS

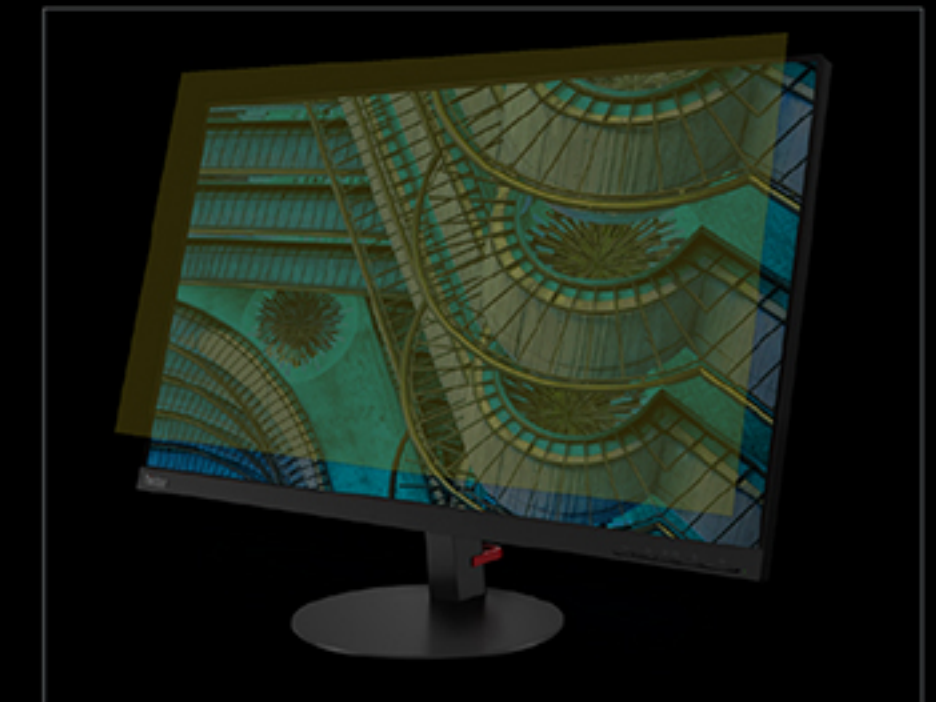

Borderless Productivity

With its near-edgeless panel coupled with In-Plane Switching 178° wide viewing angle, this monitor offers a stunning view from all angles. The 1920 x 1080 Full-HD resolution ensures unimpeded clarity, always.

Easy on the Eye

With the TÜV Eye Comfort certification, users can work for longer hours without any eye strain. The FreeSync™ technology prevents screen tearing and facilitates smooth data viewing.

Convenient Connectivity

With the VGA and HDMI ports, all connectivity needs are met. The ergonomic quick release tilt stand and the VESA mount allow users to position the monitor comfortably.
